# CHAIN PROGRAM

POWERLINE and MASTER CHAIN for dry feeding systems

## ▲ POWERLINE® - extremely strong

- Strong and durable - PowerLine is made of two types of specially hardened steel that ensures long durability
- The Powerline chain is quality tested between each joint - self-emptying drive unit that easily releases the chain

## ▲ MASTER CHAIN®

- Minimum wear and tear of the system, easy to mount - 20% lighter than other chains
- The construction ensures minimum twist of the chain - optimized dependability
- Durable - hardened and galvanized. Nylon - very strong plastic material
